

BARLE MARÍA GABRIELA

UX/UI Designer | Product Designer

La Plata, Buenos Aires, Argentina | gabi.barle@gmail.com

LinkedIn: linkedin.com/in/gabrielabarle | Portfolio: gabibarle.vercel.app

PROFESSIONAL SUMMARY

Product Designer (UX/UI) with experience designing digital products (web and apps), focused on discovery and user research processes to identify business and user needs. I work with low- and high-fidelity prototyping, design systems and usability testing to validate end-to-end solutions. Adaptable to new challenges, constantly learning, and incorporating generative AI tools into my daily workflow to explore, iterate and produce more efficiently. Experienced in collaborative, cross-functional environments, taking part in strategic product decisions.

KEY SKILLS

Product design: Product Design, UX Design, UI Design, Design Systems, Low- and high-fidelity prototyping

Research: Discovery, User interviews, Usability testing, Benchmarking, Flow analysis

Process and collaboration: Design Thinking, User-centered design, Cross-functional collaboration, Strategic product decisions

PROFESSIONAL EXPERIENCE

UX/UI Designer — Freelance | 2023 – Present

- Design digital products for a range of clients, covering both projects built from scratch and the evolution of existing platforms.
- Carried out redesigns of responsive corporate websites, proposing visual and experience improvements focused on interface (UI) consistency.
- Lead redesign processes aimed at improving the user experience (UX) and optimizing critical flows.
- Develop end-to-end solutions, from low-fidelity wireframes and problem definition to the final high-fidelity design proposal.
- Work autonomously, adapting each project to the client's business goals and context.

UX/UI Designer — Luz Consulting | 2025 – 2026

- Design digital products (web and apps) within the technology area, aligning business needs and user experience.
- Take part in early client sessions to gather requirements and define the scope of solutions.
- Explore and develop multiple design proposals, from low-fidelity wireframes to high-fidelity prototypes, iterating on alternatives until reaching a validated final solution.
- Collaborate with the development team on implementing custom skills and integrating Figma via MCP, streamlining the workflow between design and implementation.
- Work with cross-functional teams to ensure the implementation and evolution of products.

UX Designer — Mooving Tech | 2022 – 2024

- Conducted benchmarking and flow analysis, working with low-fidelity wireframes to identify opportunities to improve the user experience.
- Ran a usability test for a client in the industrial sector, identifying friction points and opportunities to improve the flow.
- Documented the work process and produced clear deliverables for development teams.
- Worked with Design Thinking processes alongside other disciplines to solve complex problems.

UX/UI Designer — Ministry of Finance of the Province of Buenos Aires (Ministerio de Hacienda y Finanzas de la Provincia de Buenos Aires) — RAFAM Project | 2021 – 2023

- Analyzed and redesigned the experience of multiple modules of the RAFAM system (Municipal Financial Administration Reform), a province-wide platform designed for the 135 municipalities of the Province of Buenos Aires.
- Gathered requirements from internal users, identified opportunities for improvement and proposed solutions with a direct impact on daily operations.
- Defined and built the module's design system (UI Kit), from low-fidelity wireframes to high-fidelity prototypes ready for implementation.

EDUCATION

UX/UI Design — Coderhouse | 2020 – 2021

IxDA La Plata Workshops — Heuristics, prototyping and user testing | 2020

Teaching Degree in Industrial Design (Profesorado en Diseño Industrial) — National University of La Plata (Universidad Nacional de La Plata) | 2018 – 2021

Industrial Design — National University of La Plata (Universidad Nacional de La Plata) | 2012 – 2017

ADDITIONAL TRAINING

- 2026 | freeCodeCamp — Responsive Web Design (in progress)
- 2025 | Somos Edison — Generate Impact with Evaluative UX Research (Sol Velázquez)

- 2024 | UX Writing Training (Agostina Casale)
- 2023 | ILA2023 — Workshop: UX and Product Design for Artificial Intelligence and Machine Learning Solutions: Creating from Uncertainty
- 2023 | RAFAM Training — Introduction to Manual Testing
- 2023 | National Disability Agency (ANDIS) and NIC Argentina — Training: How to Build an Accessible Website?

TOOLS AND TECHNICAL SKILLS

Design and prototyping: Figma, Claude Design, Whimsical, Adobe Suite, Spline 3D

Research and collaboration: Miro, Mural, FigJam

Management: Jira, Confluence, Notion, Asana

Generative AI: Claude, ChatGPT, Gemini

LANGUAGES

Spanish — Native | English — Intermediate (B2)
